

# SPECIFICATION

## **MODEL DPC – CONVEYOR OVEN HOOD**

The Duo-Aire hood shall be a Type II hood constructed to exhaust contaminants from a single or multiple deck conveyor oven. Hood shall be constructed from 300 series stainless steel where visible with aluminized steel in other areas and will be provided with U. L. Listed aluminum grease filters. Removable end panels shall be provided to enhance servicing of oven, as well as removable grease trough and cups. Centered exhaust collar shall be welded to hood top and sized for exhaust CFM per oven requirement. Exhaust CFM shall be sized for electric or gas ovens in accordance with the Duo-Aire exhaust rates cataloged.

Hanging brackets shall be provided to hang hood one inch above oven. Hood shall be fabricated to fit specific oven model.
